RE: Wagner Pit, Permit No. M-2010-002, Corrective Action 90-Day Extension Request Approval

Dear Mr. Wagner:

The Division of Reclamation Mining and Safety (Division) inspected the above mentioned site on September 9, 2015. Availability of records was cited as problem. Corrective actions require the operator to demonstrate that the operation is in compliance with the Office of State Engineer (OSE). This could be achieved by providing the Division with a valid gravel pit well permit that meet the approved reclamation plan requirements. The corrective action due date was November 17, 2015.

In efforts to abate the inspection problem Mr. Wagner was made aware that the original permit application sent to the OSE on January 30, 2008 was never filled or recorded. Mr. Wagner has since reapplied for the original permit. On November 12, 2015 a formal request for a 90 day extension was received from Jay Wagner. The Division feels this is an appropriate amount of time to obtain a valid well permit and is therefore approving the 90-day extension request.

To avoid potential future enforcement actions for non-compliance with State Statutes, Rules and Regulations, and/or conditions specified in your permit for this site, you must submit compliance documentation with the corrective actions specified by ***Wednesday, February 10, 2016***.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,

Amy Yeldell
