Re: Technical Revision North Bank Pit M-2006-018 ✓

TR 03

Dear Amy,

Oldcastle SW Group, Inc. dba United Companies would like to request a technical revision to our North Bank DRMS permit. The TR would address the newly built road that connects the North Bank site to the Glen Pit site.

United Companies operates the Glen Pit M-2005-075 which shares the north / south boundary with the North Bank Pit M-2006-018. United recently acquired the North Bank site from Lafarge West, Inc. on July 19, 2013. As the operator of both active gravel pits it made logistical sense to attach the two sites with a 50 foot wide connection road to safely allow two way traffic. As you can see in the attached google earth photo the road has been cut in and is operational. In addition, mining maps for both sites have been updated to include the road and are part of this TR request. Finally, the connection road will be removed from both sites as part of final reclamation.

I have enclosed a check for \$ 216.00 to cover the fees. Please let me know if you need additional information or documentation.

Sincerely,

Jason Burkey
