**Re: Craig Pit, Permit No. M-1976-027 Technical Revision Application TR-3,
Incompleteness Notice**

Dear Mr. Schluter:

On December 30, 2015, the Division of Reclamation, Mining and Safety received your Technical Revision application **TR-3** for the Craig Pit Permit No. **M-1976-027**, located in La Plata County. The revision requested addresses the following items:

- Slightly alter the final grading configuration of the reclamation plan and adding a graveled area at the landowner's request

Preliminary review of the information received determined that the following items must be received before the Division can consider your application as being submitted and technical review can begin:

1. *Please identify the approximate size, in acres or square feet, the size of the area to be graveled at the request of the landowner.*
2. *Please submit a new map indicating the approximate location of the graveled area.*

Please submit the requested information by the decision due date of January 29, 2016. Or your Technical Revision application will be denied and need to be re-submitted. If you have any further questions, please feel free to contact me.

Sincerely,

Lucas J. West
