**Re: Revenue Mine, Permit No. M-2012-032, Amendment Approval, Mill Certification Approval.**

Dear Mr. Lewicki:

On January 11, 2016 the Division of Reclamation, Mining and Safety completed the review of the mill certification document submitted to the Division on November 17, 2015. Based on the information submitted the certification document satisfies the requirements of Rule 7.4 of the Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for Hard Rock, Metal and Designated Mining Operations.

As of today the operator is permitted to operate the Revenue Mill at its full production rate of approximately 400 tons per day. The operator is required to perform ongoing monitoring and reporting procedures to ensure that the mill continues to operate in compliance with the approved mill certification.

If you have any questions please contact me at the DRMS Grand Junction Field Office at (970) 241-2042.

Sincerely,

Travis Marshall  
Environmental Protection Specialist
