PERMIT STATUS REGARDING TEMPORARY CESSATION

34-32.5-103. Definitions

(11) "Life of the mine" means, with respect to a permit granted pursuant to section 34-32.5-110, 34-32.5-111, or 34-32.5-112, a period lasting as long as:

- (b) Construction material reserves are shown by the operator to remain in the operation and the operator plans to, or does, temporarily cease production for one hundred eighty days or more if such operator files a notice with the board stating the reasons for nonproduction, a plan for the resumption of production, and the measures taken to comply with reclamation and other necessary activities as established by the board to maintain the operation in a nonproducing state. The requirement of a notice of temporary cessation shall not apply to operators who resume operating within one year and have included in their permit applications a statement that the affected lands are to be used for less than one hundred eighty days per year.

1.13.5 Notice by Operator

(1) If the Operator plans to, or does, temporarily cease production of the mining operation for one hundred eighty (180) days or more, the Operator must file a Notice of Temporary Cessation in writing, to the Office.

In an attempt to comply with the above referenced portions of the Colorado Land Reclamation Act for the Extraction of Construction Materials ("Act") and the Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for the Extraction of Construction Materials ("Rules"). The applicant/operator states for the record that this operation may cease production of mining operations for one hundred eighty (180) days or more from time to time. This operation is not a commercial operation but rather a Colorado County Gravel Pit (Huerfano County); they use the product to maintain regional county roads. This operation will be mined intermittently depending upon the requirements of the road maintenance scheduled by the Huerfano Board of County Commissioners and the Huerfano Roads and Bridge Department.

The operators understands that to maintain their IS and/or TC standing, they must report their status to the Board through their Annual Reports. The operator will abide by the required rules as stated in the Colorado Land Reclamation Act for the Extraction of Construction Materials ("Act") and the Mineral Rules and Regulations of the Colorado Mined Land reclamation Board for the Extraction of Construction Materials ("Rules").
