REQUEST FOR TECHNICAL REVISION (TR) COVER SHEET

File No.: M- 1981-121 Site Name: HALE PIT

County EL PASO TR# 01 **RECEIVED** (DRMS Use only)

Permittee: S & K NO. 1, LLC JAN 25 2016

Operator (If Other than Permittee): _____

Permittee Representative: JOE KRAIG DIVISION OF RECLAMATION MINING AND SAFETY ☒ AF & Report ☒ No Violations

Please provide a brief description of the proposed revision: TO CLARIFY THE
PRE-PERMIT AREA AND ESTABLISH RECLAMATION
PROCEDURES IN THAT AREA

As defined by the Minerals Rules, a Technical Revision (TR) is: "a change in the permit or application which does not have more than a minor effect upon the approved or proposed Reclamation or Environmental Protection Plan." The Division is charged with determining if the revision as submitted meets this definition. If the Division determines that the proposed revision is beyond the scope of a TR, the Division may require the submittal of a permit amendment to make the required or desired changes to the permit.

The request for a TR is not considered "filed for review" until the appropriate fee is received by the Division (as listed below by permit type). Please submit the appropriate fee with your request to expedite the review process. After the TR is submitted with the appropriate fee, the Division will determine if it is approvable within 30 days. If the Division requires additional information to approve a TR, you will be notified of specific deficiencies that will need to be addressed. If at the end of the 30 day review period there are still outstanding deficiencies, the Division must deny the TR unless the permittee requests additional time, in writing, to provide the required information.

There is no pre-defined format for the submittal of a TR; however, it is up to the permittee to provide sufficient information to the Division to approve the TR request, including updated mining and reclamation plan maps that accurately depict the changes proposed in the requested TR.

Required Fees for Technical Revision by Permit Type - Please mark the correct fee and submit it with your request for a Technical Revision.

Permit Type	Required TR Fee	Submitted (mark only one)
110c, 111, 112 construction materials, and 112 quarries	\$216	<input checked="" type="checkbox"/>
112 hard rock (not DMO)	\$175	<input type="checkbox"/>
110d, 112d(1, 2 or 3)	\$1006	<input type="checkbox"/>

Attn: Tim Cazier

RE; M-1981-121, Hale Pit, Technical Revision

Dear Mr. Cazier,

To Clarify the Pre-Permit disturbance area, we can offer the following:

1. S & K No. 1, LLC, has not expanded the disturbed area since it assumed the permit in February of 2005.
2. We were told by the previous operator, Billy Hale, that very little of the permit area had been mined. He explained that the majority of the disturbed area had been mined many years ago, prior to the issuance of a mining permit. He stated that all modern mining had been in compliance with and in the permitted area.
3. S&K No. 1, LLC will mine only in the permitted area. Any grading necessary to flatten slopes or place topsoil in the Pre-Permit area will be accomplished from the bottom of slope up. There will be no new grading or disturbance of the areas above the South and West slopes in the Pre-Permit area.
4. We do request that the South and West slopes in the Pre-Permit area be allowed at 2H:1V or flatter and that the existing naturally revegetated slopes be allowed to remain as is.

Sincerely,

Joe Kraig
Manager
