**Re: Cresson Project, Permit No. M-1980-244;
Amendment 11 (AM-11) Conditions Requiring New Notice to the Public**

Dear Mr. Henris:

The Division of Reclamation, Mining and Safety (Division) has had several telephone conversations with mine personnel to determine what is necessary to modify the permit boundary as proposed in the Amendment 11 application (AM-11). Pursuant to Rule 1.1(6) the desired permit boundary change requires CC&V to file an amendment to the AM-11 application. The amendment to AM-11 shall be filed with the Division in accordance with Rule 1.8.1. The required documentation includes any changes to the AM-11 application form, maps and/or text. Please include new map(s) delineating and labeling areas to be added and/or removed from the current approved AM-10/MLE2 permit boundary map(s). Please clarify how the new map(s) differ from the maps submitted in December 2015 with the original AM-11 application. Pursuant to Rule 1.8.1, the documentation required for this amended amendment application will need to be placed with the County Clerk and Recorder, and new notice must be served to the Board of County Commissioners and the local Conservation District, in a manner similar to the AM-11 application. The Division will review the new submittal for completeness and subsequently notify CC&V when to publish a new notice in the local newspaper pursuant to Rule 1.6.6.

If you have any questions or need further information, please contact me at (303)866-3567 x8169.

Sincerely,

Timothy A. Cazier, P.E.
