RE: Gardner Gravel Pit, Permit No. M-1979-034, Technical Revision (TR-3) Incompleteness, 30-Day Extension Approval

Dear Mr. Redmond:

The Division of Reclamation Mining and Safety (Division) received your technical revision request on December 24, 2015. The Technical Revision (TR-2) was to revise the mining plan to increase the max disturbance from 8 acres to 30 acres. On December 28, 2015 the Division deemed TR-2 inadequate and required changes to the maps submitted. Additional changes to the reclamation plan narrative were also suggested. The reclamation plan should conform to Rule 6.4.5 and the reclamation plan map to Rule 6.4.6.

The decision due date was set for January 27, 2016. On January 27, 2016 a formal request for a 30-day extension was received from Mike Gomez. The Division is extending the decision deadline to February 26, 2016. Please submit the requested information by **Friday, February 26, 2016** or your Technical Revision application may be denied.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203.
