Re: ✓ M-2011-054 Debeque Sand and Gravel Resource

Dear Stephanie,

Response to

In your December 2, 2015 inspection report you requested that we sign an affidavit stating "The off-site fill being imported to the site is, in fact, inert and meets all the requirements pursuant to Rule 3.1.5(9), which describes the intended use of inert/off site fill". In this case, we certify the concrete being imported is inert and will be used for slope fill or it will be crushed and recycled into road base. The material meets all the requirements pursuant to Rule 3.1.5(9).

This letter will serve as the required affidavit.

Sincerely,

Jason Burkey
