RE: Wagner Pit, Permit No. M-2010-002, Inspection Problem Abated

Dear Mr. Wagner:

On September 9, 2015 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Problem 2 (two) of the inspection report, cited revegetation as a problem due to the presence of state-listed noxious weeds. Corrective actions required you to develop a weed control and management plan in accordance with Section 3.1.10(6) of the Rule. On February 9, 2016 the Division received your technical revision request (TR-1). On March 3, 2016 the Division approved TR-1 thus satisfying the corrective actions required. All problems identified in the September 9, 2015 inspection report have now been abated.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell, at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,

Amy Yeldell
