**RE: Hitch Rack Ranch Quarry, DRMS Permit No. M-2016-010
Receipt of 112 Construction Materials Reclamation Permit Application Package
Incompleteness**

Mr. Schnabel,

On February 19, 2016, the Division of Reclamation, Mining and Safety (Division) received the 112 Construction Materials Reclamation Permit Application package for the Hitch Rack Ranch, DRMS Permit No. M-2016-010. Preliminary review of the information received determined the following items must be received before the Division can consider the application as being submitted and technical review can begin:

APPLICATION FORM:

1. On Page 8, Certification, please affix a corporate seal in the area indicated. If your corporation does not have a seal, please either write "no seal" or draw a seal in the area indicated.

EXHIBIT Q (Rule 6.4.17) Proof of Mailing of Notices to Board of County Commissioners and Soil Conservation District:

2. In this exhibit, you provided an acceptable proof of notice to the Board of Supervisors of the El Paso County Soil Conservation District for which a small portion of the proposed affected land is within the boundary. However, the majority of the proposed affected land is within the Turkey Creek Soil Conservation District. Therefore, please also provide proof of notice in the form of a return receipt of a Certified mailing or a date-stamped copy of the notice acknowledging receipt of the permit application by the Board of Supervisors of the Turkey Creek Soil Conservation District.

Your application will not be considered submitted until the information listed above is received and found sufficient to begin our review. A decision date will be established 90 days from the date of receipt of all of the requested information. Additionally, if you have already published notice you will need to republish notice after the Division considers the application submitted. This notice must be published once a week for four (4) consecutive weeks, starting within ten (10) days of the date your application is considered submitted. We will notify you when you should initiate republication of your notice. The final date for receiving comments is the 20th day after the fourth publication or the next regular business day.

You have sixty (60) days from the original incompleteness date to submit all necessary documents the Division needs for an application to be considered filed. If, at the end of the sixty day period, the application has not been determined to be filed with the Division, the Division shall deny the application and terminate the application file. **The response due date is May 02, 2016.**

This letter shall not be construed to mean that there are no other technical deficiencies in your application. The Division will review your application to determine whether it is adequate to meet the requirements of the Act after submittal of all required items.

If you have any questions, please contact me at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203, by telephone at 303-866-3567, extension 8129, or by email at amy.eschberger@state.co.us.

Sincerely,

Amy Eschberger
Environmental Protection Specialist
