Victor, CO 80860

**Re: Cresson Project, Permit No. M-1980-244;
Amendment to Amendment 11 (AM-11.1) Conditions Requiring New Notice to the Public**

Dear Mr. Henris:

The Division of Reclamation, Mining and Safety (Division) received your proof of newspaper publication as required by Rule 1.6.2(1)(d) on March 22, 2016 for the amendment to the Amendment 11 application. The Division identified an error in the address to which comments should be sent for the Division's consideration. The Room number was listed as "21" where it should have been "215". Pursuant to Rule 1.6.6, the Division considers this error a condition that requires new notice to the public.

The new notices will need to be published one a week for four consecutive weeks pursuant to Rule 1.6.2(1)(d). Also, pursuant to Rule 1.6.2(1)(e), you must serve a copy of this notice immediately after the first publication to:

- i. all Owners of Record of the surface and mineral rights of the affected land; and
- ii. the Owners of Record of all land surface within 200 feet of the boundary of the affected lands.

The Division recommends the new notice contain a brief explanation that the purpose of the new notice is to correct the mailing address to the Division. We further recommend CC&V send us a copy of the notice as soon as practical after the first publication date so we may verify it is complete and correct.

If you have any questions or need further information, please contact me at (303)866-3567 x8169.

Sincerely,

Timothy A. Cazier, P.E.
Environmental Protection Specialist
