

Permit M-1982-121

As of: 5/2/2016

Memo

Below is an updated chronology of M-1982-121. Key changes resulting from revisions, inspections and submittals are identified based on the stamped date. Note that acreages requested do not always coincide with already approved acreages. Also map boundaries submitted have changed without proper revisions. May 2 2016 a letter was sent to CalX to resolve this discrepancy. The acreage reflected in the permit system has been corrected to approved values, AM-2 maps are the approved boundary shape until negated by a proper revision.

Actual

Paperwork Submitted

Date	Revision	Current	Added	New	Notes
5/19/1982	Application	-	-	16.3	16.3 ac application approved on 4/25/83
9/14/1982	Application	-	-	14.5	
6/21/1989	AM-1	10.6	5.1	15.7	Approved +5.1 ac on 8-30-89
		16.3	5.1	21.4	
3/6/1992	Inspection	Several problems noted, specifically fines bench washed out into a			
3/31/1992	Enforcement	RTB sent			
4/22/1992	Board	requires and amendment to include all affected lands			
5/27/1992	AM-2	23	11.4	34.4	incorporate washout areas into the permit plus more mining land
		21.4	11.4	32.8	
10/19/2009	TR-3	Rock Dust mill incorporation-approved. Map submitted (1/19/2010) displaying pad location matches AM-2. Approved 1/27/2010			
4/26/2010	Ann Rpt	Annual Report map submitted, good quality of maps, northeast corner is slightly pushed out.			
4/21/2011	Ann Rpt				
10/12/2011	Inspection	No boundary markers cited as problem. Required a survey to replace markers and new map.			
12/1/2011	Inspection	received documentation that corrective actions had been done. Map that was submitted was different than the AM-2 boundary. Specifically larger knob on the east side			
		All subsequent maps have followed the "new" permit boundary lines			
5/2/2016	Letter	Letter sent to operator to resolve issues
