RE: Martin Pit 1-A, Permit No. M-1990-140, CN-1 Completeness 30-Day Extension Request Approval

Dear Mr. Duran:

The Division of Reclamation Mining and Safety (Division) received the Construction Material Regular (112) Operation Reclamation Permit Application (CN-1) package submitted to the Division on February 25, 2016. This application was initially determined to be incomplete. The original due date for completeness was May 4, 2016.

On May 2, 2016 a formal request for a 30 day extension was received from Derek Duran. Duran & Pearce Contractors have hired a consultant to address incompleteness items identified in the March 4, 2016 letter. The Division has approved this extension request and will allow up to an additional 30 days for completeness. The new completeness due date for CN-1 is **Friday, June 03, 2016.**

If the application has not been determined to be filed with the Office by the above date, the Office shall deny the application and terminate the application file. This letter shall not be construed to mean that there are no other technical deficiencies in your application. The Division will review your application to determine whether it is adequate to meet the requirements of the Act after submittal of all required items.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,

Amy Yeldell
