**Re: Corrective Action Deadline Extension Request - Approved;  
Cresson Project; Permit No. M-1980-244**

Dear Mr. Henris,

On May 19, 2016, the Division of Reclamation, Mining and Safety (Division) received your request to extend the deadline of a corrective action identified in the April 29, 2016 inspection report of the Cresson Project. The corrective action is associated with the possible violation cited, which requires the Operator to reestablish the approved secondary containment capacity for the cyanidation leach tanks.

The Division has approved this request and the new deadline to complete the corrective action is **May 31, 2016**. Please submit proof that the corrective action has been completed on or before the deadline.

If you need additional information or have any questions, please contact me at Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by telephone at **303-866-3567 x8132**, or by email at [elliott.russell@state.co.us](mailto:elliott.russell@state.co.us).

Sincerely,

Elliott R. Russell  
Environmental Protection Specialist
