RE: Nolte Pit #1
Permit # M-2012-016

Dear Amy,

The purpose of this letter follows both our discussion this morning regarding our desire to request an extension to submitting the technical revision that we requested of May 5, 2016. Given some recent family deaths and weather affecting surveying, I have been unable to perform in a timely manner on Puckett Land Company's behalf in submitting this technical revision. As we discussed, we need only the end of this week to complete the technical revision, however, barring any unforeseen circumstances, we are requesting an additional week.

In summary, we are requesting a two week extension for submission of the technical revision for Nolte Pit #1 (Permit #M-2012-016) to June 17, 2016.

Upon your receipt and review, if you have any questions, please don't hesitate to call.

Respectfully submitted,
SGM, Inc.
