Re: Notice of 110(C) To 112(C) Construction Materials Reclamation Permit Conversion Application  
Consideration - Duran & Pearch Contractors, Inc., Martin Pit 1-A, Permit No. M-1990-140 (SHPO  
Project #70396) ✓

Dear Ms. Yeldell:

Thank you for your correspondence dated June 6, 2016 (received by our office on June 9, 2016)  
regarding the above subject project.

A search of the Colorado cultural resource inventory database indicated one previously recorded site  
in the project area:

Site No.:	National Register Eligibility:	Name/Type:	Recording or Assessment:
5MF7572.1	Officially not eligible	HAYDEN - VERNAL TRANSMISSION LINE - SEGMENT	2012 (assessment)

Please understand that our files contain incomplete information for this area, as most of Colorado has  
not been inventoried for cultural resources. As a result, there is the possibility that as yet unidentified  
cultural resources exist within the proposed project area.

Should human remains be discovered during the proposed project activities, the requirements under  
State law C.R.S. 24-80 (part 13) apply and must be followed.

Thank you for the opportunity to comment. If we may be of further assistance, please contact Todd  
McMahon, Staff Archaeologist at (303) 866-4607/[todd.mcmahon@state.co.us](mailto:todd.mcmahon@state.co.us) or Amy Pallante,  
Intergovernmental Services Director at (303) 866-4678 [amy.pallante@state.co.us](mailto:amy.pallante@state.co.us)

Sincerely,

Steve Turner, AIA
