PUBLIC NOTICE

Aggregate Industries-WCR, Inc., 1687 Cole Boulevard, Suite 300, Golden, CO 80401, (303) 985-1070, has filed an application for an Amendment to Regular (112) Construction Materials Operation Reclamation Permit No. M-1989-029 with the Colorado Mined Land Reclamation Board under provisions of the Colorado Land Reclamation Act for the Extraction of Construction Materials. The mine is known as Longmont Distel Operations and is located at or near Sections 7, 8, 17 and 18, Township 2 North, Range 68 West of the 6th Prime Meridian.

This is an ongoing operation under an existing permit. All extraction activity at Longmont Distel Operations is complete. Operations area processing and sales of material and post-mining reclamation is ongoing. The approved future use of the land is wildlife habitat and recreation. The Amendment proposes to update the reclamation plan to reflect the current landscape of the Longmont Distel Operations site and identify remaining areas for post-mining reclamation and areas for flood restoration following the catastrophic flood event throughout the St. Vrain Creek watershed in September 2013. The Amendment application does not propose to change the currently approved post-mining land use. Flood restoration and improvements areas are expected to be completed in the Fall of 2017. The proposed completion date for reclamation of operations areas is 12/31/2033.

Additional information and tentative decision date may be obtained from the Division of Reclamation, Mining, and Safety, 1313 Sherman Street, Room 215, Denver, Colorado 80203, (303) 866-3567, or at the office of the Clerk to the Board of Weld County Commissioners, 1150 O Street - Administration Building, Greeley, CO 80632, or the above-named applicant.
