RE: Juniper Quarry, Permit No. M-1982-141, Corrective Action Extension Request Approval-3

Dear Mr. Anson:

The Division of Reclamation Mining and Safety (Division) inspected the above mentioned site on November 24, 2015. General compliance with mine plan was cited as problem. Corrective actions required that the operator submit in the form of a technical revision an updated and clarified mining and reclamation plan, as well as all correlating maps. The original corrective action due date was set for March 10, 2016.

On July 8, 2016 the Division received an extension request from Mr. Anson. Mr. Anson has completed the necessary work to update the mining and reclamation maps. Currently he is finalizing the narrative portion of the revisions. Based on the extension request letter, the package should be ready shortly. The Division is approving this extension request.

To avoid potential future enforcement actions for non-compliance with State Statutes, Rules and Regulations, and/or conditions specified in your permit for this site, you must submit compliance documentation with the corrective actions specified by **Friday, July 15, 2016.**

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@ state.co.us

Sincerely,

Amy Yeldell
