Re: Technical Revision Approval; Fryrear Gravel Pit; Permit No. M-1998-071; Revision No. TR-01

Dear Mr. Kuntz:

On July 8, 2016 the Division of Reclamation, Mining and Safety approved the Technical Revision application submitted to the Division on June 1, 2016, addressing the following:

Clarifies how mining will be conducted, adds two new potential mining tracts within the affected area boundary, and provides two structure agreements.

The terms of the Technical Revision No. 01 approved by the Division are hereby incorporated into Permit No. M-1998-071. All other conditions and requirements of Permit No. M-1998-071 remain in full force and effect.

The estimated liability amount of \$48,900.00 exceeds the \$47,000.00 performance bond currently held. If you have not already done so, please submit additional bond in the amount of \$1,900.00. The revision will not be final until the bond is approved by the Division. Details regarding the Surety Increase will be provided under separate cover.

If you need additional information or have any questions, please contact me at Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by telephone at **303-866-3567 x8132**, or by email at elliott.russell@state.co.us.

Sincerely,

Elliott R. Russell
Environmental Protection Specialist
