RE: North Clear Creek Construction Materials Mine, Permit No. M-2006-039, Technical Revision (TR-1) Approval

Dear Mr. Grubbs:

On July 18, 2016 the Division of Reclamation, Mining and Safety (Division) approved the Technical Revision request (TR-1) submitted on July 11, 2016, addressing the following:

1. *Updated mining and reclamation maps to clarify the current disturbance and affected acreage to date*
2. *Allow imported inert fill*
3. *Change to intermittent operator status*

The terms of the TR-1 approved by the Division are hereby incorporated into Permit No. M-2006-039. All other conditions and requirements of the permit remain in full force and effect.

The Division currently holds a Financial Warranty of \$36,939 for this site. In an effort to ensure the Financial Warranty adequately, reflects the actual current cost of fulfilling the requirements of the approved reclamation plan the Division has updated the reclamation cost estimate. The Division has found this amount to be adequate.

If you require additional information, or have questions or concerns, please feel free to contact me.
