RE: Nolte Pit #1, Permit No. M-2012-016, Technical Revision TR-2 14-Day Extension Request Approval

Dear Mr. Simonson:

The Division of Reclamation Mining and Safety (Division) inspected the above mentioned site on March 22, 2016. General Compliance with mine plan was cited as problem. Corrective actions require the operator to submit a Technical Revision, with the required \$216 revision fee, to update and clarify the current approved reclamation plan to reflect existing and proposed activities. On June 21, 2016 the Division received your technical revision. Upon review of the material submitted the Division identified deficiencies that would need to be resolved prior to approval. On July 25, 2016 the Division received a letter via email from Mr. Simonson requesting additional time to address the adequacy issues identified in the July 22, 2016 letter from the Division. The Division is approving the 14-day extension request.

To avoid potential future enforcement actions for non-compliance with State Statutes, Rules and Regulations, and/or conditions specified in your permit for this site, you must submit compliance documentation with the corrective actions specified by ***Friday, August 05, 2016***.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,
