Re: Reclamation completed
M-2009-038

Travis,

I have tried reaching you on the phone to notify you of the completion of our reclamation on our gravel pit in Rangely (M-2009-038). Please find this letter as our notification. My husband, Steve, completed the work this weekend. He says the pit is pretty much completely reclaimed and we shouldn't need much of anymore reclaim because he can do it as we move forward.

Our plan is to put in a sprinkler system around the top edge of the reclamation and seed with appropriate seeds. He has put a berm across north to south so the water can cover the ground of that portion of the floor of the open pit. I have called Joy Surveying and they will be doing a drone survey with pictures to bring my annuals up to date as well.

Please get back with me on this, thanks.

Best Regards,

Elaine C Urie, President
