Re: Flying Triangle, Permit No. M-2008-018, Notice of Temporary Cessation, Notice of **Incompleteness**

Dear Mr. Henderson,

On July 8, 2016 the Division of Reclamation, Mining and Safety (Division) received your notice to revise the permit status on the above listed site to Temporary Cessation effective March 4, 2014. This notice is to inform you that on July 12, 2016 deemed your notice incomplete. The following item is required for your notice to be considered complete;

1. In accordance with Rule 1.13.5 (2) (e), the financial warranty for the site must be demonstrated to be adequate to cover the reclamation liability. The Division has reviewed the reclamation cost estimate for the site and deemed that the currently held \$12,681 is inadequate to achieve reclamation of the site. Please find the enclosed Notice of Surety Increase SI-01 and its attached reclamation cost estimate worksheets.

The additional financial warranty was due July 25, 2016. Once the financial warranty is received the notice will be considered filed and processing will begin. Per the inspection report mailed out on May 31, 2016 the site shall be put into temporary cessation by August 31, 2016. To avoid future potential enforcement actions please submit the required bond as soon as possible so that the TC process may begin. If you have any questions please feel free to contact me at the DRMS Grand Junction Field Office by phone at (970)-254-8511 or by email at amy.yeldell@state.co.us

Sincerely,

Amy Yeldell

Environmental Protection Specialist

RE: Flying Triangle Ranch Pit, Permit No. M-2008-018, Reclamation Costs Update and Notice of Surety Increase (SI-1)

Dear Mr. Henderson:

In an effort to ensure the Financial Warranty for the above referenced site adequately reflects the actual current costs of fulfilling the requirements of the approved reclamation plan, the Colorado Division of Reclamation, Mining and Safety (Division) has updated the reclamation cost estimate (copy enclosed).

Division calculations estimate the cost to reclaim the above referenced site to be \$21,368 rounded up from \$21,367.86. This is an increase of \$8,687 over the \$12,681 currently held by the Division. This estimate is based on conditions observed during the May 11, 2016 inspection. Please note that no surety increase have occurred since the permit issuance in 2008. Therefore, pursuant to Section 34-32.5-117(4) of the Colorado Land Reclamation Act, adequate Financial Warranty must be submitted to the Division within 60 days of the mailing date of this letter. The additional amount needs to be accepted prior to Monday, July 25, 2016. Please review the enclosed figures as soon as possible and contact our office if any calculation errors are noted.

Please make arrangements with Barbara Coria at the Division of Reclamation, Mining and Safety Denver Office, phone no. 303.866.3567, ext. 8148 for submittal of the financial warranty. Any questions regarding completion, execution and/or submittal of financial warranty forms should also be directed to Barbara Coria.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@ state.co.us

Sincerely,

Amy Yeldell
