RE: Wyman Pit, Permit No. M-1983-037, Corrective Action 14-Day Extension Request Approval

Dear Mr. Wyman:

The Division of Reclamation Mining and Safety (Division) inspected the above mentioned site on June 16, 2016. Weeds were cited as problem. Corrective actions require the operator to 1) treat weeds and 2) submit a weed management plan in the form of a technical revision. The corrective action due date was August 26, 2016. On August 25, 2016 a formal request for a 15 day extension was received from Davis Wyman. It was noted that weeds have been treated and currently you are working to develop a plan with the Routt County Weed Manager. The Division is approving the 14-day extension request.

To avoid potential future enforcement actions for non-compliance with State Statutes, Rules and Regulations, and/or conditions specified in your permit for this site, you must submit compliance documentation with the corrective actions specified by ***Friday, September 09, 2016.***

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203.
