RE: Powell's Gravel Pit, Permit No. M=1995-012, Inspection Problem Abated

Dear Mr. Powell:

On June 14, 2016 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Availability of Records was cited as a problem in the inspection report for resuming activity after declaring to be in final reclamation. Corrective actions required that you submit a letter clarifying to the Division that it would like to be considered in active status again and that mining activities have resumed by the corrective action date.

On August 8, 2016 the Division received the above mentioned letter. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell, at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,

Amy Yeldell
