***RE: Juniper Quarry, Permit No. M-1982-141, Inspection Problem Abated***

Dear Mr. Anson:

On November 24, 2015 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. General compliance with mine plan was cited as a problem in the inspection report. Both the mining and reclamation plan needed to be updated and clarified. Corrective actions required that you submit a Technical Revision, with the required \$216 revision fee. Update and clarify the current approved mine and reclamation plan to reflect existing and proposed activities by the corrective action date.

On September 16, 2016 the Division approved the technical revision (TR-4) request. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell, at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,

**Amy Yeldell**
