RE: Decision Date Extension Approval; Stewart Pit II, Permit No. M-2009-010, 110c to 112c Conversion; CN-01

Dear Mr. McCormick,

The Division of Reclamation, Mining and Safety (Division) has received your request to extend the decision date for the 110c to 112c Construction Materials Reclamation Permit Conversion Application for the Stewart Pit II, Permit No. M-2009-010. The Division has approved this request and the decision date has been extended an additional 60 days. **The Division is now required to make an approval or denial decision no later than November 25, 2016.** A response to the adequacy review letter dated September 19, 2016, should be submitted to the Division as soon as possible. In order to allow the Division adequate time to review your responses to the adequacy issues, please submit your adequacy responses to the Division no later than one week prior to the decision date (November 18, 2016).

If more time is needed to complete the reply, the Division can grant an extension to the decision date. This will be done upon receipt of a written waiver of the Applicant's right to a decision by November 25, 2016 and the request for additional time. This must be received no later than the deadline date.

If you need additional information or have any questions, please contact me at Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by telephone at **303-866-3567 x8132**, or by email at elliott.russell@state.co.us.

Sincerely,

Elliott R. Russell
Environmental Protection Specialist
