RE: Red Rock Pit, Permit No. M-1978-315, Inspection Problem Abated

Dear Mr. Nettleton:

On June 16, 2016 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Revegetation was cited as a problem for the presence of noxious weeds. Corrective actions required that you implement the approved weed control plan and provide documentation to the Division that this had been done by the corrective action date.

On September 28, 2016 the Division received the above mentioned documentation. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell, at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,

Amy Yeldell
