I forgot to forward this. We can terminate the NOI since it was never deemed complete. Thanks.

Jim,

The holes in question are all on Ute Mountain Ute surface. Please withdraw NOI X-2014-236-01.

Please let me know if you need something more formal than an email.

Thanks,

Tom

Just to follow up on the conversation we had the other day regarding an NOI, it does not look like you need one from DRMS. Since all of the surface in question is Indian Lands it is under federal jurisdiction, not state jurisdiction. That said, the Division has an NOI, X-2014-236-01, that has been deemed incomplete. If these exploration holes were the subject of this NOI it is no longer necessary and you can request that it be withdrawn. If it is for different exploration (and, based on the map in the NOI and the BLM EA I think it is the same area as the map you sent me) then let's discuss. Thanks.

Jim,

This is pretty simple, but I think it may be what you are looking for. Please let me know if you need anything more.

Tom,

Do you have a pdf of the exploration locations map you can send me? Thanks.
