**RE: Extension Request Approved; 112c Construction Materials Reclamation Permit Application;
Pueblo County Aggregate Project; DRMS File No. M-2016-009**

Dear Mr. Ary,

As requested on September 28, 2016, the Division of Reclamation, Mining and Safety (Division/DRMS) approves your request to extend the review period of your 112c Construction Materials Permit Application for the Pueblo County Aggregate Project. The Division has re-set the recommendation date to October 21, 2016 and rescheduled the Board Hearing to November 16-17, 2016. Once rescheduled, you will be formally noticed of the new Pre-hearing Conference date.

In order to allow the Division adequate time to review your responses to the August 26, 2016 Adequacy Review #2 letter, please submit your adequacy responses to the Division no later than October 14, 2016.

If you are unable to provide satisfactory responses to any inadequacies prior to the new recommendation date, **it will be your responsibility to request an extension of time to allow for continued review of this application.** If there are still unresolved issues when the recommendation date arrives and no extension has been requested, the Division will issue a recommendation to deny the permit.

If you need additional information or have any questions, please contact me at Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by telephone at **303-866-3567 x8132**, or by email at elliott.russell@state.co.us.

Sincerely,

Elliott R. Russell
