Re: Bowie No. 2 Mine (Permit No. C-1996-083), Technical Revision No. 108 (TR-108), Delete 19 Series GVBs and Technical Revision No. 109 (TR-109), Expand Pond J to the West (HC #67452)

Dear Mr. Musick:

Thank you for your correspondence dated August 31 and September 14, 2016 (received by our office on September 6 and September 16, 2016 respectively) regarding the above referenced technical revisions.

After review of the documentation provided including supplemental information received by our office on September 27, 2016 it is our opinion pursuant to 36 CFR 800.3(a)(1) that TR-108 is an undertaking that has no potential to cause effects on historic properties while TR-109 will result in no historic properties affected as per 36 CFR 800.4(d)(1).

Should unidentified archaeological resources be discovered in the course of the undertaking, work must be interrupted until the resources have been evaluated in terms of the National Register eligibility criteria (36 CFR 60.4) in consultation with our office pursuant to 36 CFR 800.13. Also, should the consulted-upon scope of the work change please contact our office for continued consultation under Section 106 of the National Historic Preservation Act.

We request being involved in the consultation process with the local government, which as stipulated in 36 CFR 800.3 is required to be notified of the undertaking, and with other consulting parties. Additional information provided by the local government or consulting parties might cause our office to re-evaluate our eligibility and potential effect findings. Please note that our compliance letter does not end the 30-day review period provided to other consulting parties.

Thank you for the opportunity to comment. If we may be of further assistance, please contact Mark Tobias, Intergovernmental Services Manager, at (303) 866-4674 or [mark.tobias@state.co.us](mailto:mark.tobias@state.co.us).

Sincerely,

 Steve Turner, AIA  
State Historic Preservation Officer
