RE: Elkhorn Springs Pit; DRMS File No. M-1980-013; Corrective Action
Documentation

Dear Ms. Crawford,

The Division received your above referenced response to Compliance Problem 1 and 2 in the Division's report of the inspection that was conducted on May 31, 2016. The status of the corrective actions reported by Park County in regard to these problems are as follows:

Compliance Problem 1: Erosion gullies and ruts were observed on-site.

This problem is considered abated as a result of the submittal of photographic documentation showing the erosion ruts and gullies have been repaired.

Compliance Problem 2: Vegetation has not been established to the standards required in C.R.S. 34-32.5-116(4)(f) and Construction Materials Rule 3.1.10(1).

This problem is considered abated as a result of the submittal of seed tags and photographic documentation showing the site was seeded, mulched and fertilized in accordance with the approved Reclamation Plan.

If you have any questions, please contact me at (303) 866-3567 x8116

Sincerely,

Michael A. Cunningham
