The unauthorized mining or exploration prospecting activities were discovered on the 28th of September during a tour of the property by Eurasian Minerals executives and brought to my attention late that day. We believe this digging is occurring on property owned by Jude Meyer on behalf of the Estate of Ben Wright and under contract to purchase by MineWater. In subsequent conversations Randy Burke admitted to Dean Misantoni that he was the one who did the digging but that he alleged it was on his property.

I don't know if there is an NOI for such activities if it was on his portion of the claim.
