

MINERALS PROGRAM INSPECTION REPORT
PHONE: (303) 866-3567

The Division of Reclamation, Mining and Safety has conducted an inspection of the mining operation noted below. This report documents observations concerning compliance with the terms of the permit and applicable rules and regulations of the Mined Land Reclamation Board.

MINE NAME: Schwartzwalder Mine	MINE/PROSPECTING ID#: M-1977-300	MINERAL: Uranium	COUNTY: Jefferson
INSPECTION TYPE: Monitoring	INSPECTOR(S): Michael A. Cunningham	INSP. DATE: March 29, 2016	INSP. TIME: 14:30
OPERATOR: Cotter Corporation	OPERATOR REPRESENTATIVE: Ken Mushinski, Steve Cohen	TYPE OF OPERATION: 112d-2 - Designated Mining Operation	
REASON FOR INSPECTION: Normal I&E Program	BOND CALCULATION TYPE: None	BOND AMOUNT: \$4,339,003.39	
DATE OF COMPLAINT: NA	POST INSP. CONTACTS: None	JOINT INSP. AGENCY: None	
WEATHER: Cloudy	INSPECTOR'S SIGNATURE: 	SIGNATURE DATE: April 12, 2016	

GENERAL INSPECTION TOPICS

This list identifies the environmental and permit parameters inspected and gives a categorical evaluation of each. No problems or possible violations were noted during the inspection. The mine operation was found to be in full compliance with Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for the Extraction of Construction Materials and/or for Hard Rock, Metal and Designated Mining Operations. Any person engaged in any mining operation shall notify the office of any failure or imminent failure, as soon as reasonably practicable after such person has knowledge of such condition or of any impoundment, embankment, or slope that poses a reasonable potential for danger to any persons or property or to the environment; or any environmental protection facility designed to contain or control chemicals or waste which are acid or toxic-forming, as identified in the permit.

Y = Inspected and found in compliance / N = Not inspected / NA = Not applicable to this operation / PB = Problem cited / PV = Possible violation cited

OBSERVATIONS

The inspection was conducted by Michael Cunningham of the Division of Reclamation, Mining and Safety (Division). Ken Mushinski and Steve Cohen with Cotter Corporation were also present for the inspection. The inspection was conducted as part of the Division's regular monitoring program and this inspection serves as the 1st Quarter inspection for 2016.

The inspection began with a meeting to discuss future permitting actions at the Schwartzwalder Mine. The Operator informed the Division that Technical Revision No. 23 (TR23) was prepared and would be submitted shortly. The Operator will address the excavation of alluvial valley fill through TR23. The excavation of the alluvial valley fill is the next step towards completing reclamation of the site and is intended to improve water quality at the mine site.

The Reverse Osmosis system was operational at the time of the inspection and was pumping at a rate of 120 gpm. In addition, the Ion Exchange system was online. The Operator informed the Division that all of the waste resin from the Ion Exchange treatment system had been shipped offsite.

This concluded the inspection.
