RE: Sulphur Mtn. Gravel Pit; DRMS File No. M-1977-365; Technical Revision No. 2;
Adequacy Review No. 2

Dear Ms. Crawford,

The Division has identified several other comments and questions that must be addressed prior to the Division's decision due date.

1. The Mining Plan Map does not include a labeled permit boundary. Please revise the Mining Plan Map to include a labeled permit boundary which delineates the 4 acres of affected land associated with the Sulphur Mtn. Gravel Pit.
2. The Mining Plan Map contains arrows which show the direction mining will proceed. The arrows appear to be outside of the 4 acre permit boundary. Please revise the Mining Plan Map so that any notation regarding the direction of mining is contained within the permit boundary.
3. The Reclamation Plan Map contains a label for the direction the mining operation will proceed. Please remove this label from the Reclamation Plan Map.
4. The Reclamation Plan Map does not include a labeled permit boundary. Please revise the Reclamation Plan Map to include a labeled permit boundary which delineates the 4 acres of affected land associated with the Sulphur Mtn. Gravel Pit.

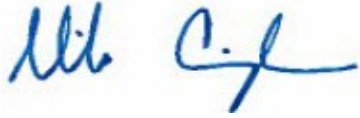

This concludes the Division's adequacy review of this Technical Revision. Please remember that the decision date for this Technical Revision is November 1, 2016. As previously mentioned, if you are unable to provide satisfactory responses to any inadequacies prior to this date, it will be your responsibility to request an extension of time to allow for continued review of this Technical Revision. If there are still unresolved issues when the decision date arrives and no extension has been requested, the Technical Revision will be denied.

Ms. Crawford
