Dear Mr. Duran:

On October 26, 2016, the Division of Reclamation Mining and Safety (Division) received an extension request for the above mentioned 112c permit application decision date. The Division acknowledges that now an agreement has been reached between you the State Land Board regarding subsurface rights. Now the lease process and adequacy issues are being resolved. As soon as an agreement is reached please provide the Division with said information. Please submit additional adequacy documentation prior to the decision due date to allow staff time to review. Note that without board approval the decision due date cannot be extended beyond February 25, 2017.
