MEMORANDUM

To: Permit File for Navajo Clay Pit, Permit No. M-1993-004

From: Amy Eschberger, DRMS

Date: November 04, 2016

Re: Correction to Required Surety Amount in Permit System

On November 04, 2016, the Division changed the required surety amount in the permit system from \$37,750.00 to \$48,297.00 via Administrative Revision No. AD-1. The required surety of \$48,297.00 is currently posted by the operator.

This correction was made in support of the following documents found in the permit record:

- On 6/9/2008, the Division conducted an inspection of the site to obtain data for calculating the required surety for a succession of operators application (Revision No. SO-01) that was submitted on 5/14/2008 to transfer the permit from Robinson Brick Company to General Shale Brick, Inc. The Division's bond estimate was included with the inspection report, with a calculated amount of \$48,297.00.
- On 9/24/2008, the Division sent notification of the required surety for Revision No. SO-01, in the amount of \$48,297.00.
- On 10/21/2008, the Division sent notification of financial warranty increase acceptance, for an increase from \$37,750.00 to \$48,297.00.

Although the required surety was posted by the successive operator, the required surety amount was never changed in the permit system.
