Regarding our ownership of the South portion of the Colona Gravel Pit, South of Montrose, and operated by Oldcastle SW Group dba United Companies. State permit M-1994-005

Dear Dustin:

Further to my previous emails on today's date,
kindly review and respond to the following:

It is our understanding that United does not have a valid lease for the South portion of the Colona Pit, (referenced above). It is also our understanding that there has not been a valid lease since 2011/2012. In reviewing the company's annual reports (your form 112c) United appears to be making false statements with respect to Item 19.

Respectfully, we would appreciate your response to this letter, prior to your addressing the various issues raised in my earlier 5 page memorandum.

We are not accusing United of intentional wrongdoing, however this appears to be a critical matter, and I would appreciate your review, and United's response. I will put this same issue to Mr. Siegmund at United, and request an explanation if one is warranted.

1. With regard to United's failure to renew it's lease at any time since 2012, is the company in violation of it's permit with DMRs, or is the company in violation of any other state requirements?
2. With regard to United's failure to notify the state that they have not had a valid lease since 2011, is the company in violation of it's permit, or any other state requirements?
3. With regard to United's apparently false claims in it's annual reports for the Colona Gravel Pit, is the company in violation of it's permit, or any other state requirements?
4. If any of the above matters constitute a responsibility on the state's part to take action, or to require that action be taken, would you kindly notify me immediately?

Uncompahgre Holdings stands ready to provide a valid lease for purposes that can meet the state's requirements, and with the objective to move these matters to a resolution.

Sincerely

John Kuijvenhoven
