***RE: Frentress Gravel Pit, Permit No. M-2011-017, Inspection Problem Abated***

Dear Mr. Domson:

On July 19, 2016 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Revegetation was cited as a problem for the presence of state-listed noxious weeds. Corrective actions required that the operator develop a weed control and management plan in accordance with Section 3.1.10 (6) of the Rule. This plan should be developed in consultation with the county extension agency, or weed control district office and should include specific control measures to be applied, a schedule for when control measures will be applied and a post-treatment monitoring plan. This weed control plan shall be submitted to the Division as a Technical Revision to the approved plan with the appropriate Technical Revision fee of \$216.00 by the corrective action date.

On November 29, 2016 the Division received your weed management plan technical revision request. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell, at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,

**Amy Yeldell**
