***RE: Kagie Gravel Pit, Permit No. M-1979-102, Inspection Problem Abated***

Dear Ms. Quick:

On August 17, 2016 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Revegetation was cited as a problem for the presence of noxious weeds. Corrective actions required that you submit a weed management in the form of a technical revision with the required \$216 revision fee by the corrective action date.

On January 4, 2017 the Division received the technical revision request. On January 5, 2017 the Division approved the technical revision (TR-2). This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell, at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,

**Amy Yeldell**
