Re: J & J Pit, Revision Denial, Permit No. M-1985-001, Technical Revision Denial, TR-1

Dear Mr. Helmericks:

On January 19, 2017 the Division of Reclamation, Mining and Safety considered your request for the J & J Pit, addressing the following:

- *Revise/replace Exhibits C, D and L, Supplement Exhibit E, add Geotechnical Stability Exhibit and clarify the original application*

The Division has denied your Technical Revision request because the items outlined in the September 16, 2016 Adequacy Review were not addressed. The original due date for submittal of adequacy response was extended per your request to December 19, 2016. That deadline is now 30 days past due. Therefore, the current conditions and stipulations of the above listed permit remain in effect.

An inspection to evaluate the required financial warranty for the above listed site is forthcoming. I will contact you to schedule the inspection as soon as conditions allow. If you have any questions or concerns, please feel free to contact me at the Division's Grand Junction Field Office by phone at (970)-243-6368 or by email at lucas.west@state.co.us.

Sincerely,

Lucas J. West
Environmental Protection Specialist
