**Re: Project, Permit No. M-1980-244;
Technical Revision (TR-87) Approval**

Dear Mr. Henris:

On January 18, 2017 the Division of Reclamation, Mining and Safety received your emailed response to our adequacy letter. The Division has reviewed your responses and approved the Technical Revision application submitted to the Division on December 12, 2016, addressing the following:

Squaw Gulch VLF Phase 1 Completion Record of Construction Report

The terms of the Technical Revision No. 87 approved by the Division are hereby incorporated into Permit No. M-1980-244. All other conditions and requirements of Permit No. M-1980-244 remain in full force and effect.

The Division has reviewed the change associated with TR-87 for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability. Therefore, the surplus warranty remains at \$558,914.00, last adjusted with the approval of TR-78 on October 25, 2016.
