**Re: Corrective Action Deadline Extension Request - Approved;
Cresson Project; Permit No. M-1980-244**

Dear Mr. Henris,

On January 23, 2017, the Division of Reclamation, Mining and Safety (Division) received your request to extend the deadline of a corrective action identified in the August 18, 2016 inspection report of the Cresson Project. The corrective action is associated with cited Compliance Problem #3, which requires the Operator to replace missing/damaged edge of liner signs delineating the edge of the Arequa Gulch Valley Leach Facility.

The Division has approved this request and the new deadline to complete the corrective action is **February 7, 2017**. Please submit proof that the corrective action has been completed on or before the deadline.

If you need additional information or have any questions, please contact me at Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by telephone at **303-866-3567 x8132**, or by email at elliott.russell@state.co.us.

Sincerely,

Elliott R. Russell
Environmental Protection Specialist
