RE: Sacramento Access Tunnel, File No. M-2016-084, Comments Regarding 110(2) Application

Mr. Gydesen:

On January 24, 2017 the Division of Reclamation, Mining and Safety (Division) received comments regarding the above referenced application from the State Historic Preservation Officer (SHPO).

Please be aware of the jurisdictional issues presented by the SHPO.

If you require additional information, or have questions or concerns, please contact me at the Division's Grand Junction Field Office.

Sincerely,

Dustin Czapla

Re: Consideration of 110(2) Hard Rock Reclamation Permit Application, Sacramento Access Tunnel, Permit No. M-2016-084 (HC #71572)

Dear Mr. Czaplá:

We received your correspondence dated January 5, 2017 on January 11, 2017 initiating consultation with our office under the State Register of Historic Places Act (CRS 24-80-1 et seq.) for the above referenced project.

A search of our database indicates that no cultural resource inventory has been conducted within the proposed permit area and no properties of historical significance have been recorded therein. As most of Colorado has not been inventoried for cultural resources, our files contain incomplete information. Consequently there is the possibility that as yet unidentified cultural resources exist within the proposed permit area. The requirements under CRS 24-80 part 13 apply and must be followed if human remains are discovered during ground disturbing activities.

We thank you for the opportunity to comment. If we may be of further assistance, please contact Bob Cronk, Section 106 Compliance Manager, at (303) 866-4608 or robert.cronk@state.co.us.

Sincerely,

Steve Turner, AIA
State Historic Preservation Officer
