Mr. Fletcher:

On February 2, 2017, the Division of Reclamation, Mining and Safety received your Technical Revision application **TR-9** and the required fee for the Revenue Mine Permit **M-2012-032**, which is located in Ouray County. The revision requested addresses the following items:

- Addition and/or upgraded buildings to ease winter operations and maintenance and house staff.
- Allow for mill discharge, which will be treated prior to comingling with mine discharge in the mine water management system.
- Update water quality monitoring requirements.
- Allow for the sale of blended tailings and waste rock, provided the blend passes applicable leachate standards.

The Division is reviewing your revision submittal for adequacy. The decision due date is scheduled for March 9, 2017. We will contact you if additional information is needed.

Sincerely,

Travis Marshall
