Re: Lyons Quarry - Permit No. M-1977-141 – Technical Revision No. 2
Decision Date Extension Request

Dear Michael:

The current decision date for TR-2 is February 28, 2017. As discussed during the meeting that John Balleger of HDR and I had with you and TC on February 16, HDR is working on responses to the Division's Adequacy Review No. 3 comments. We appreciate the opportunity that we had to discuss the Division's comments and Aggregate's proposed responses in detail during that meeting.

HDR is nearing completion of responses however it is unlikely that they will be submitted by end of business today and the Division would in any case not have time to review the detailed responses to facilitate a decision on TR 2 today. Aggregate is therefore requesting another extension of the decision date to April 28, 2017. While we hope that the responses to Adequacy Review No. 3 will be sufficient to address the Division's comments and facilitate a decision, the additional time requested will provide an opportunity to further discuss any additional questions or concerns the Division may have.

Thank you for your consideration.

Very truly yours,

A handwritten signature in blue ink that reads "Connie N. Davis".
