Re: Detroit City Mine, Park County, Colorado
Permit # M2017003

Dear Sirs,

This letter is in support of the proposed Detroit City Mine. The project will be an economic positive for the local community with added jobs and additional money pumped into the community. The operator, Calumet, Inc., has a history of operating in an environmentally responsible manner. It seems like a win-win for the State and local communities. I fully support this permit for the Detroit City Mine.

Sincerely,

Robert M. Perkins
