Hello Mr. Coulson,

Attached is a report from Mondays inspection. Also, I conducted a review of the reclamation cost estimate and the required liability for the site. The site was to be bonded for each Phase of the mining operation (Phase I and Phase II). Additional bond was required to be submitted prior to initiating mining in the Phase II area. This did not occur. Given this, the financial warranty must be increased. Please see the report for details and the included reclamation cost estimates.

Please let me know if you have questions.

Thanks,

--

Jared Ebert
