***RE: Juniper Mountain Gravel, Permit No. M-2003-073, Inspection Problem Abated***

Dear Mr. Anson:

On September 21, 2016 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Availability of records was cited as a problem because the site appeared to be inactive. Corrective actions required that file for Temporary Cessation or begin reclamation by the corrective action date.

On February 8, 2017 the Division received a technical revision request (TR-2). The request put the site into intermittent status as well as committed to doing some reclamation in the spring of 2017. TR-2 was approved on March 15, 2017. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me. Amy Yeldell, at the Division of Reclamation, Mining and Safety, 1313 Sherman St., Room 215, Denver, CO 80203. Direct contact can be made by phone at 970-254-8511 or via email at amy.yeldell@state.co.us

Sincerely,

**Amy Yeldell**
